SignComp™

A simple new approach to flush changeable message panels

SignComp's
Insert Panels are:
• Quickly removable
• Completely interchangeable
• Easily replaceable

They simply slide in and out after the Insert Panel End Cover is removed.

• Illuminated applications
• Non-illuminated applications
• Hingeable and Non-hingeable aluminum framework
• Flush frameless appearance
• Concealed structural divider

Choice of custom size panels

Custom height panels may be placed anywhere on the face

Custom Panel

Insert Panel

Custom Panel
Insert Panel

Choice of three Extruded Aluminum Insert Panels 4", 6" and 8" or create custom height Aluminum Insert Panels by fixing Top and Bottom Aluminum Insert Adaptors to .090" aluminum sheet

• Extruded aluminum

• 16'1" extruded lengths

• Clear anodized to facilitate the sliding motion

• For illuminated applications: Routed out graphics backed with plastic

• For non-illuminated applications: Painted or applied vinyl graphics

Create custom height Plastic Insert Panels by fixing Top and Bottom Plastic Insert Adaptors to .125" plastic sheet

• Extruded modified DR white acrylic

• 8'1" extruded lengths

• For illuminated applications: Surface painted opaque background over applied masking films (applied masking films are removed to reveal translucent graphics)

• For non-illuminated applications: Painted or applied vinyl graphics

4
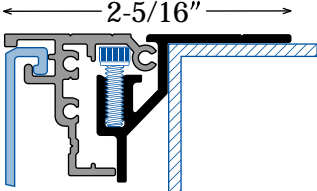

SignComp™

The simplicity of SignComp's changeable Insert Panels on hingeable aluminum frames

Insert Panels slide in and slide out after Insert End Cover is removed

Hingeable aluminum framework

Insert Panels are supported the full width by concealed Insert Dividers

End view of Insert Divider

Simply remove Insert End Cover to access insert panels

- Flush, countersunk stainless steel fasteners hold the Insert End Cover in place
- Concealed, structural dividers support the Insert Panels
- Aluminum Insert Panels, Insert Divider and Aluminum Insert Panel Adaptors are supplied clear anodized to facilitate the sliding motion
- Integrated, hingeable frame allows for easy access for service
